## 1 Format of the Manuscripts

The camera-ready version should be submitted via the camera-ready submission page. It should follow the style described below.

### Basic Format:

- The manuscript should be typeset with the style files available at [http://www.qci.jst.go.jp/aqis10/camera\\_ready.html](http://www.qci.jst.go.jp/aqis10/camera_ready.html) and prepared in PDF<sup>1</sup>.
- The manuscript should not exceed two pages including the title page, using A4-sized papers.
- No page of the manuscript should contain page numbers/page headings.

### Layout:

- The manuscript should have top-, foot-, and side-margins of 2cm, 2.5cm, and 1.5cm, respectively (the title page should have top margin of 3cm.)
- The manuscript should begin with a title, followed by names, affiliations and postal addresses of authors, followed by a 100-word abstract and keywords. The main body should use two-column style. E-mail addresses of authors should be placed in footnotes.

## 2 Theorems and Proofs

Our style file prepares the following environments.

---

\*nemoto@nii.ac.jp

†mosca@iqc.uwaterloo.ca

‡imai@is.s.u-tokyo.ac.jp

<sup>1</sup>When you create PDF file from your manuscript source (especially from MS-Word), please select fonts carefully for some fonts cannot be handled well by PDF creating system.

Environment name	Heading
definition	<b>Definition</b>
theorem	<b>Theorem</b>
lemma	<b>Lemma</b>
corollary	<b>Corollary</b>
proposition	<b>Proposition</b>
example	<b>Example</b>
remark	<b>Remark</b>
fact	<b>Fact</b>
conjecture	<b>Conjecture</b>

## 3 Figures and Tables

For figures and tables, the captions should be placed below figures and above tables.

## 4 Bibliography Styles

The following bibliography style used in this document is preferable. The authors may use common abbreviations for journal and conference names.
