

From Narita Airport to the venue

There are two main ways to get to the venue (Hongo area). You might choose one of the following.

(#1) You can take Skyliner (Keisei line) from Narita Airport to Keisei-Ueno station (Skyliner from Narita Airport to Keisei-Ueno takes about 1 hour and costs 1,920 yen). And from there, either take a taxi to your hotel or to the Red Gate of the university of Tokyo (about 800 yen). Otherwise if you are accustomed to walking a few hundreds meters, take the Oedo Line subway from Ueno-okachimachi to Hongo-sanchohome (160 yen). However, you should carefully check one of the maps around Keisei-Ueno stations and this way is not recommended since you might have a lot of luggage.

(#2) First take Narita Express (JR line) from Narita Airport to Tokyo station. This takes about 1 hour and costs 3,140 yen. Then take the Marunouchi Line subway from Tokyo station to Hongo-sanchohome station. This takes about 10 minutes and costs 160 yen.

Around the venue (from subway stations to the office and hall)

Here we assume that you get off at Hongo-sanchohome station, although you could get off another subway stations, such as Nezu and Todaimae, around the Hongo area (see the guide map).

(Subway station->Red Gate) From Hongo-sanchohome station you go along Hongo-dori Street for the University of Tokyo. At first around the police box (*KOBAN* in Japanese), then, after about 350 meters, on the right side of the street, you see the so-called Red Gate (*Aka-Mon* in Japanese) of the University of Tokyo, which looks like an old brownish entrance to a temple. This is one of the entrances to Hongo Campus of the University and one of the ways to go to Sanjo conference hall (for September 7th). However, you might use the main gate, which is 300 meters ahead on Hongo-dori Street.

(Red Gate -> the Office) If you do not enter the Red Gate and keep walking along the Hongo-dori Street, by another 50 meters, you will see, at the end of a 50-meter-long small dead-end street to your left, a white 3-floor building. The *ERATO Quantum Computation and Information Project* office is on the second floor.

(The Office -> Yayoi Hall) Walking still further on Hongo-dori Street you come, after 500 meters, to a big crossway. On the right, after the crossway, there is Yayoi Campus of the University of Tokyo. You enter the first gate and to the right you find Yayoi Hall of the University of Tokyo (for September 6th and 8th).
